# EcoProven PRODUCTS FOR COVID-19 PROTECTION

March 9, 2021

## Sanitizing Against the SARS-CoV-2 Virus which causes Covid-19 disease

Since the 1990s, EcoProven's proprietary technology has been used as a non-toxic industrial cleaner & deodorizer for many applications. Recently, it was discovered that EcoProven's environmentally friendly formulation is highly effective at destroying the fatty lipid outer membrane of the SARS-CoV-2 virus. This has been confirmed through certified, laboratory testing. This is confirmation that harsh chemicals **are not necessary** to disinfect people, buildings and vehicles to neutralize and mitigate the Covid-19 disease.

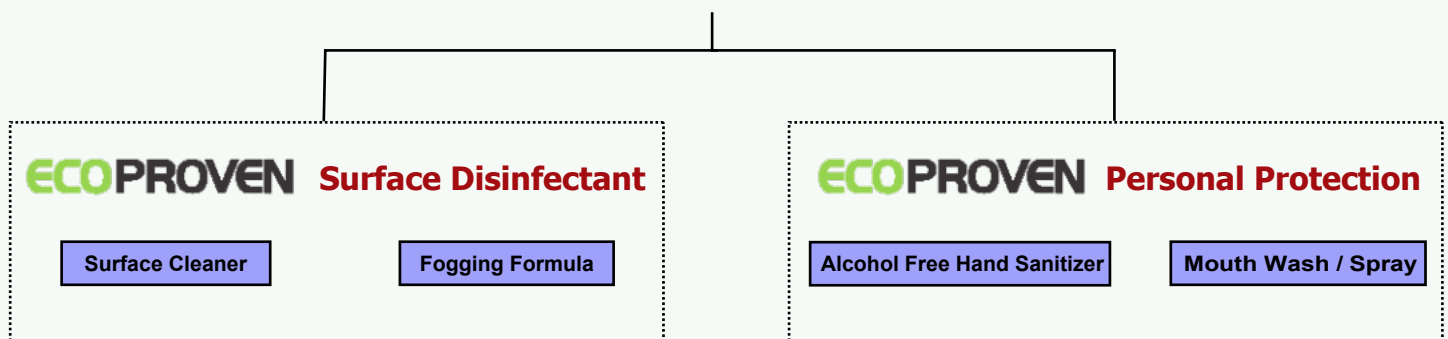

- Non-toxic / certified environmentally friendly
- Biodegradable
- Outstanding multi-purpose cleaning agent
- Will not harm people, pets or marine life
- Cleans deep into surfaces
- Not a soap or detergent
- Contains only environmentally safe & renewable materials
- Leaves no residue
- Non-fuming, non-flammable
- Continues to work as long as water/moisture is present

**ECO**PROVEN

### Active Ingredient Technology

**Non-Toxic  
Biodegradable**

### Who says that strong chemical agents are needed to effectively sanitize?

The EcoProven technology is a proprietary blend of plant based ingredients (ionic and anionic compounds) that turn nature's most common solvent (water) into a powerful cleaner, deodorizer and virucide. EcoProven is neither a detergent nor a soap. This disinfecting technology does not contains harsh chemicals, is certified environmentally safe for people, pets and marine life and is biodegradable.

## Features & Benefits

- Non-toxic / certified environmentally friendly
- Biodegradable
- Outstanding multi-purpose cleaning agent
- Not a soap or detergent
- Cleans deep into surfaces
- Continues to clean as long as moisture/water is present
- Not harmful to people or livestock
- Breaks down fats, oils & grease
- Non-Corrosive - safe on floors, metals, drains & pipes
- Non-fuming, non-flammable
- Not harmful to livestock food and water
- Reduces odors
- Contains only environmentally safe & renewable materials

## Compatible Surfaces

- Glass
- Stainless Steel
- Wood
- Ceramic
- Fibreglass
- Plastic
- Vinyl
- Painted Surfaces
- Powder Coated Finishes
- Porcelain
- Aluminum
- Galvanized steel
- Steel
- Rubber

## Application Methods

- Spray & Wipe
- Cloth & Bucket
- Mop & Bucket
- Foot Bath
- Spot Cleaning
- Spraying
- Misting
- Fogging
- Pressure Washing
- Steam Cleaning

## Technical Data & Approvals

### Properties

- Liquid (clear) at 70 °F
- Odorless & Colorless
- Extremely low foaming
- Freezing point: 32 °F
- Flashpoint: none at 212 °F
- pH 10.4 NEAT (in concentrate)
- Specific gravity: 1.029
- Viscosity: @20 c > 225-375 (290 average) cps
- Pounds per gallon: 8.52

### Technology Approvals

- EPA Water Sense certified . EPA Approval #
- UL Green Guard certified . CDC Approval #
- Approved & used by US Navy
- Approved & used by United States Postal Service
- Approved by United States Department of Agriculture
- Green Seal Certified

### Handling & Storage

- Protect from temperatures below 32 °F and over 90 °F
- No special handling measures are necessary
